Information about the Service

What is the service?

Business Freedom™ Mobile Broadband service is a wireless internet service that uses the 5G/4G/3G Network to deliver internet connectivity.

Mobile Broadband Device

You will need to bring your own unlocked Mobile Broadband Device (USB/Modem/Router) that can access the 4G/5G network.

Mobile Network

UNIFIED NET PTY. LTD. (ABN 81 621 735 000) uses parts of the Telstra Mobile Network that cover more than 98.8% of the population with 3G and 97.9% of the population with 4G.

UnifiedNet's 5G mobile plans use parts of Telstra's 5G, 4G and 3G mobile networks. The service provides 5G Coverage reaching at least 75% of the Australian population. The Telstra Wholesale mobile coverage area footprint reaches more than 98.8% of the Australian population and covers more than 1.6 million square kilometres of the Australian landmass.

Minimum term of the service

Business Freedom™ MBB Plans are supplied on 1 or 24 month contract terms. If you port out or disconnect your service, the full monthly service amount multiplied by the remaining months will be charged. Any plan changes will take effect on your next monthly bill cycle.

Data Banking

Unused data can only be banked up to a maximum of 500GB. If a higher inclusion plan (e.g., 32GB) is downgraded to a smaller plan (e.g., 10GB), then the data banked will be forfeited. If a service is suspended, it will retain its banked data, but it will not accumulate more data each month it remains suspended. If a customer changes plan to a plan that is not eligible for data banking, their included data will be forfeited.

Business Mobile Broadband Includes:

- Wireless Internet Service for use in Australia
- Limited data allowances per month. Data allowances do not roll over and all unused data allowances will expire at the end of each month. Excess data usage charge applies.
- Modem/Router Options: Bring your own Modem or get UnifiedNet™ Modem
- \$11 delivery fee applies for all hardware delivery
- All rates are inclusive of GST
